**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

This is a first office action on the merits for application serial number 10/577,583 filed 4/27/2006. Claims 1-34 are pending.

#### ***Claim Objections***

1. Claims 6-34 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits. Further, a restriction may result upon proper conformance to U.S. claim practice.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "may be" renders the claim indefinite because it is unclear, especially in light of the depending claims, whether the limitation(s) following the phrase are part of the claimed invention.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Mora (U.S. Pat. 3,388,509).

- a. Claims 1-5. Mora discloses a plate element:
  - i. Having at least one hollow body 82/84 as claimed (Col. 3 lines 20-21, lines 28-29);
  - ii. At least two compression/tension elements 62/64 surrounding the hollow body (Fig. 9);
  - iii. Wherein an end of each element 62/64 is connected non-positively with the end of another element 62/64 (Fig. 9);
  - iv. The hollow body 82/84 between the compression/tension elements 62/64;
  - v. The compression/tension elements 62/64 are connected to each other via tensile elements 66/86, which pass through and round the outside of the hollow body 82/84, may be prestressed as claimed to achieve the desired forces upon each member; and

- vi. The compression/tension elements, if any, that are always subject to axial pressure may be constructed as claimed.
